**NOTICE TO THE MARKET**  
**EXTRAORDINARY TARIFF REVIEW**

We would like to inform that the Brazilian Electric Energy Regulatory Agency (ANEEL), in a Board Meeting held today, approved the results from the Extraordinary Tariff Review requested by several electric energy distribution companies, including Companhia Energética do Maranhão (Cemar) and Centrais Elétricas do Pará (Celpa). In this sense, ANEEL approved new tariffs to be applied as from March 02, 2015, with an average impact of 3.0% on Cemar's consumers and of 3.6% on Celpa's.

It should be highlighted that ANEEL approached the extraordinary tariff review request jointly with the budgeting of the CDE account for 2015, as well as the enhancement of the Tariff Flags mechanism, so that this result should be analyzed together with the Tariff Flags new prices and its compensation mechanism between distribution companies through a joint central account, created by the Decree 8,401/15.
