NOTICE TO THE MARKET

ANEEL Approves the Proposal for CEMAR's 2nd Periodic Tariff Review

Rio de Janeiro, June 18, 2009 – Equatorial Energia S.A. and Cia. Energética do Maranhão – CEMAR inform the market and the general public that the *Agência Nacional de Energia Elétrica* (“ANEEL”), at a public Board Meeting held on June 16, 2009 and through the *Nota Técnica* 208/2009, approved the proposal for CEMAR's 2nd Periodic Tariff Review of -6.06% covering the period between August 29, 2009 and August 28, 2013.

Considering the financial components, related to the recovery of past differences on the tariff and the pass-through of the differed tariff review, the average impact on customer's tariff is an increase of 4.99%.

The readjustment proposed is the main outcome from the tariff review process and is a consequence of the setting, by ANEEL, of the efficient operating costs, through the Reference Company methodology, of the prudent investments, through the Regulatory Asset Base and the recognition of the non-manageable costs, also known as Parcel A.

Additionally, ANEEL established new regulatory levels for losses and delinquency. For the regulatory losses, a decrease track, starting at 24.16% and ending the cycle at 16.22%. As delinquency, the level to be considered for the next cycle is 0.9% of the distribution gross revenues.

We would like to highlight that the figures above mentioned are provisory, and the definitive numbers of CEMAR's Tariff Review Process will be ratified by ANEEL on August 28, 2009.
